

PROGRAM DISCLOSURES – 2019-2020 Award Year

L3HARRIS Flight Academy – Sanford, Florida

The following program disclosures are provided pursuant to federal regulations effective July 1, 2011.

- “Occupation” data reflects the type of occupations the program generally prepares students to enter. To the extent permitted under the standards of the applicable accrediting agency or state agency, the placement rates reported below may reflect students that completed the program and obtained employment in one of the occupations listed in the standard occupational titles below or other occupations that utilize the core skills taught in the program.
- “On-Time Completion Rate” reflects the percent of graduates between July 2019, and June 30, 2020 who completed their program within 100 percent of the normal timeframe as described in the school catalog or enrollment agreement.
- “Costs to Students” reflects the current costs of the academic program for students completing the program on time, including tuition and fees, estimated books and supplies, and if applicable, room and board. Costs do not reflect potential increases.
- “Placement Rates” reflects the percent of graduates securing employment as calculated pursuant to applicable state agencies’, institutional accrediting agencies’ or programmatic accrediting agencies’ required calculation methodologies. Each agency has different criteria in determining what constitutes a placement and these placements may or may not be listed in the standard occupations listed below.
- “Median Loan Debt” reflects the median loan debt incurred by students who completed the program, between July 1, 2019 and June 30, 2020, including Title IV program loans, private educational loans and institutional financing plans.

Professional Pilot Program (Diploma)

CIP Code: **Airline/Commercial/Professional Pilot and Flight Crew.** A program that prepares individuals to apply technical knowledge and skills to the flying and/or navigation of commercial passenger and cargo, agricultural, public service, corporate and rescue fixed wing aircraft. Includes instruction in principles of aircraft design and performance; aircraft flight systems and controls; flight crew operations and procedures; radio communications; navigation procedures and systems; airways safety and traffic regulations; and governmental rules and regulations pertaining to piloting aircraft. Programs may qualify individuals to sit for the FAA commercial and airline aircrew examinations.
