

+ \$15,000 towards a rewarding career as an airline pilot +

LAUNCH YOUR NEW COMMERCIAL PILOT CAREER

Apply the skills and experience you gained from serving your country towards a rewarding career as a commercial pilot. L3Harris is proud to support the transition from serving in the U.S. Armed Forces to a civilian career and are offering two \$15,000 scholarships to be used towards pilot training at its Flight Academy in Sanford, Florida.

Our pilot programs are approved and regulated by the Federal Aviation Administration (FAA) and are designed to take cadets with little or no flying experience and train them to become commercial pilots, ready for a rewarding career on the flight deck.

WHY TRAIN WITH L3HARRIS?

- > We have affiliations with 11 Regional Airlines providing clear career pathways.
- > All graduates are guaranteed an interview to become an L3Harris Flight Instructor, so you can earn money while building the required flight hours to join the Regional Airlines.
- > We're located at Sanford International airport in Central Florida, so you'll experience flying in a commercial airspace and benefit from the sunny Florida weather with 300+ flying days per year.
